

List and Description of LAGs Restriction

October 1st, 2015

Aviation Security Office, Airport Safety and Aviation security Division, Civil Aviation Bureau

For all departing international flights originating from Japan, when you would carry Liquids, Aerosols and Gels (LAGs) on the cabin of an aircraft as cabin baggage, you would be asked to follow quantitative restrictions regarding for those LAGs. A classification of LAGs for this restriction and typical articles are as follows. To facilitate the understanding of this restriction, the one that exception to be treated and not to be included in this restriction are shown in the references. This information will be updated as necessary depending on operational circumstances.

Please pay attention to follows:

- ① The liquid, the gel, and the aerosol correspond to this restriction. Also articles which cannot keep its shape without the container, correspond to this restriction.
- ② Even if it is included in LAGs restriction, **the articles which you purchased within Restricted Area are exempted from this restriction. However, for those international transfer/transit passengers, LAGs which you carry may be confiscated at Security Check Points according to the rules and restrictions within the other States. Please check with your airline before your boarding.**
- ③ Under the MLIT's ministerial ordinance (article 194 of Ordinance for Enforcement of the Civil Aeronautics Act), **Articles which are prohibited by air transportation** are defined as Explosives, High-pressure Gases, Flammable Liquids, Flammable Materials, Oxidizing Substances, Toxic Substances, Radioactive Materials, Corrosives, Miscellaneous Dangerous Goods, and Weapons by article 86-1 of Civil Aeronautics Act. **Those articles are prohibited as before.**
- ④ **The screener at the Security Check Points gives a concrete judgment** of this restriction.
- ⑤ The following tables are typical examples, and when the content of the liquid is few, may be allowed to carry on the cabin of an aircraft. These tables are not ensuring that facilitation of security screening and not applicable to the other States. **The passengers are kindly required that try to put those LAGs into checked baggage if you would not use them in the cabin.**
